

Access information in one place

**Secured Web based Church Management
Software**

By communication ministry

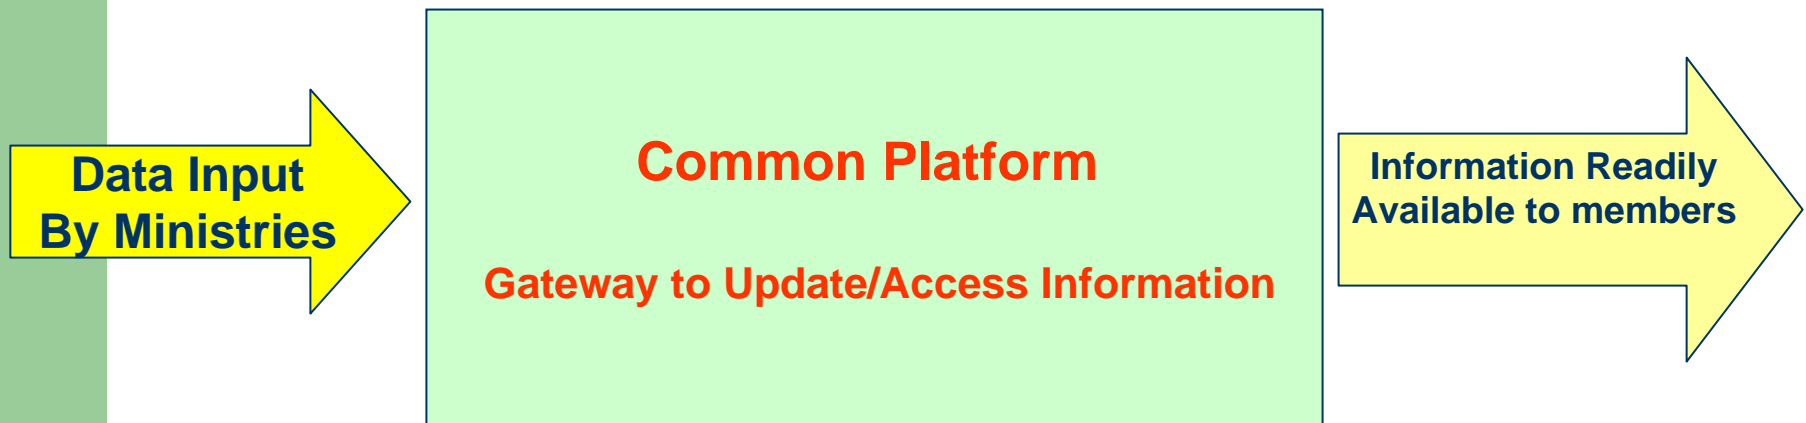

Objectives

- Centralize church ministries & events
- Empower YOU
- Systematic care and connect visitors.
- Help members to communicate, be informed
- Build the CMS system TOGETHER
- Provide additional Help the church to grow

Integrated Church Management Software

- A systematic approach to communication
- Ministries & Membership database
- Visitor care and connection system.

What does Web Hosting mean?

- By subscribing to the Web Hosting service provider, we are “leasing” a virtual space from the internet to “house” information.
- No hardware or software is required as long as we have access to the internet.
- Secured Login ID and Password will be provided to each individual CBC members

Dynamic Information Exchange

- Information can be updated via the Internet Portal – All you need is a browser, accessible anytime, anywhere!
- Real-time updates will be available to church members and ministry leaders.
- Empower members to fully participate in the life cycle of CBC and be a contributor to church information.

Common Features

- Ministry dashboard – empower ministry leader
- Calendar, Scheduling and Reservation tools
- Online Events Enrollment & Registration
- Member Directory – personal profile updates/search
- File Sharing
- Information Bulletin
- Visitors Care and connection System
- Security Check-in/out for Nursery
- Attendance recording
- Broadcast email/Distribution list/phone tree dial list

Web Hosting services – 3 Modules

- **PowerVisitor** – a web tools to systematically track and connect visitors
- **PowerMember** – secure member access; tools to manage all church ministries while driving a process to connect congregations, electronic directory.
- **PowerWeb** – interactive webpage which empowers members to fully participate in the life of church
- 3 modules work seamlessly together with powerful synergies. Cost \$1,620/year for 500 weekly attendances, daily cost less than 1 cent per member. <http://www.connectionpower.com>

Action Plan (3-9 months)

- . Fully import membership information
- . Create login account for all CBC members
- . Build all church ministries into the system.
- . Link members to ministries
- . Install visitor kiosk and member access kiosk.
- . Bar code scanner to register attendances.
- . Provide user training to members.
- . Utilize PowerVisitor to care/connect visitors.

What to do next?

- Membership information questionnaire
- Member data enter into the CMS system
- Recruit Connection partners
- Training connection partner to attend visitors
- Develop long term training schedule
- Experiment Kiosk system
- Acquire bar code reader/scanner for tracking attendance

Measure of success

- Depend on member/church acceptance
- Depend if YOU are using it.
- Is it easy to use?
- Accessibility!
- Is it secure?
- Building the CBC church database together.
- Depend if we can explore the full potential
- Accountability

Recruitment

- Connection Partner - volunteer to attend visitors.
- Member from the English congregation to join the Communication Ministry.
- If you are interested in this ministry, please contact Raphael Lam.
